

# BCBA Examination Pass Rates for Verified Course Sequences

2013-2017

These data represent the annual number of first-time candidates from each Verified Course Sequence, along with the percentage of those who passed. Candidates are included in a course sequence's pass-rate data if they used coursework entirely from that sequence to meet the eligibility requirements for certification. Data are not reported for (a) course sequences within their first 4 years of operation or (b) course sequences with fewer than 6 first-time candidates during the year. Combined data are reported for course sequences that had too few candidates in each year, but 6 or more across a 2-year period.
