

The University of British Columbia (**UBC Faculty of Education; Department of Educational and Counselling Psychology and Special Education; and Department of Philosophy**), in partnership with the Vancouver Institute of Philosophy for Children (**VIP4C**), is delighted to host the 17th ICPIP international conference in beautiful Vancouver, Canada.

Keynote Speakers:

- 1 Dr. Kieran Egan
- 2 Dr. Charles Bingham
- 3 Dr. Alanaise Goodwill

The topic for the 2015 ICPIP conference focuses on general questions around identity, inquiry, and diversity from various perspectives. We will be welcoming conceptual and empirical research, as well as pedagogical analyses. The purpose is to foster a dialogue that brings together insights on how to transform children's vulnerability and engagement in increasingly multicultural, diverse, changing, and ever more fragile environments so that they may learn to cultivate both compassion and agency.
