BY: JULIE ACRES

UPDATED APRIL 2017

GETTING STARTED

I have developed a helpful 2-minute video tutorial on how to gain access to your profile page: <https://youtu.be/PM7mm6nNo6k>

This is a one-time-only set-up process.

LOGGING IN TO EDIT YOUR PROFILE

You can update your website profile page at any time by visiting:

cms.ubc.ca

Press the login button underneath “Already a user?” and sign-in with your CWL.

VIDEO TUTORIAL

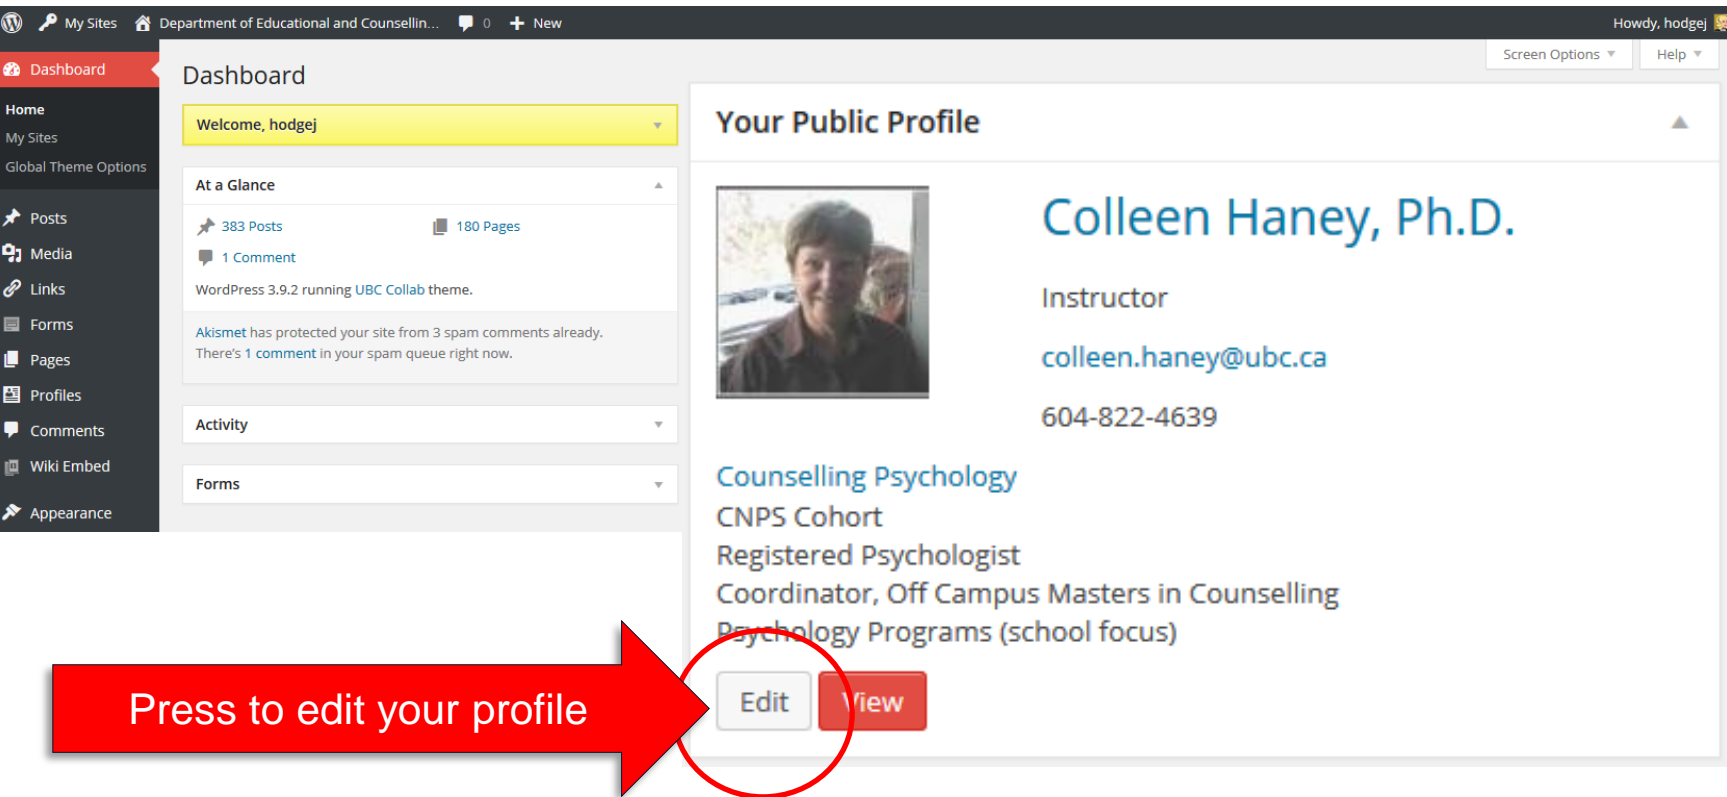

I have condensed a one-hour workshop into a <10 minute video tutorial on how to edit your website profile page. This is a convenient asset, as you can refer back to this video whenever you need!

<https://youtu.be/NGpyoYbf1PY>

This tutorial outlines basic editing and formatting techniques, highlights naming conventions/guidelines, and includes a few key questions for moving forward.

YOUR DASHBOARD

The screenshot shows a WordPress dashboard for a user named 'hodgej'. The left sidebar contains navigation links: Home, My Sites, Global Theme Options, Posts, Media, Links, Forms, Pages, Profiles, Comments, Wiki Embed, and Appearance. The main content area is titled 'Dashboard' and includes a 'Welcome, hodgej' message. Below this is an 'At a Glance' section showing 383 Posts, 180 Pages, and 1 Comment. A message from Akismet indicates 3 spam comments were protected. The 'Your Public Profile' section displays a profile picture of Colleen Haney, Ph.D., her title as Instructor, her email address (colleen.haney@ubc.ca), and her phone number (604-822-4639). Her professional credentials are listed as Counselling Psychology, CNPS Cohort, Registered Psychologist, and Coordinator of Off Campus Masters in Counselling Psychology Programs (school focus). At the bottom of the profile section, there are 'Edit' and 'View' buttons. A large red arrow points from the text 'Press to edit your profile' to the 'Edit' button.

COMPOSING & FORMATTING

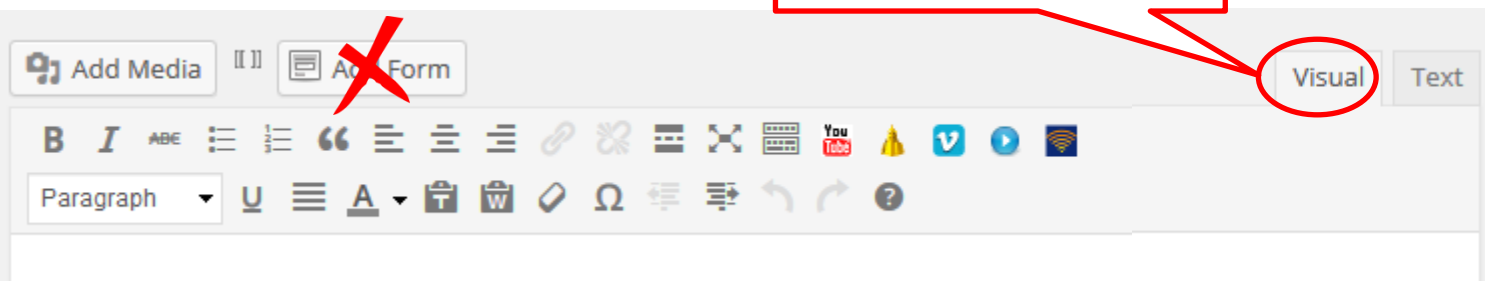

Often, the visual text editor formatting toolbar is collapsed. Expand the formatting options by selecting the “**Toolbar Toggle**”.

Note: Each field section includes the same formatting options.

No need to select “Add Form”

Stay on the visual editor tab.

COMPOSING & FORMATTING

You can paste in text directly from a MS Word documents to save time.

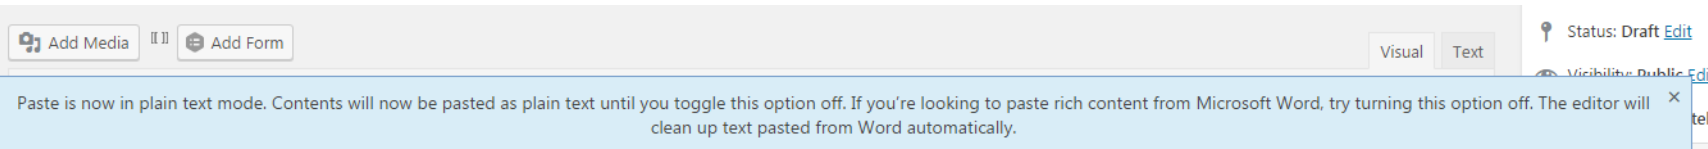

KEYBOARD SHORTCUTS	PC	MAC
COPY	Ctrl + C	Command + C
PASTE	Ctrl + V	Command + V

However, often the problem with this is that not all the Word formatting copies over to WordPress seamlessly.

A cleaner solution would be to copy and paste the text in plain text. This can be performed in the WordPress visual editor tab by first selecting this icon:

After selecting the icon, the following message might appear:

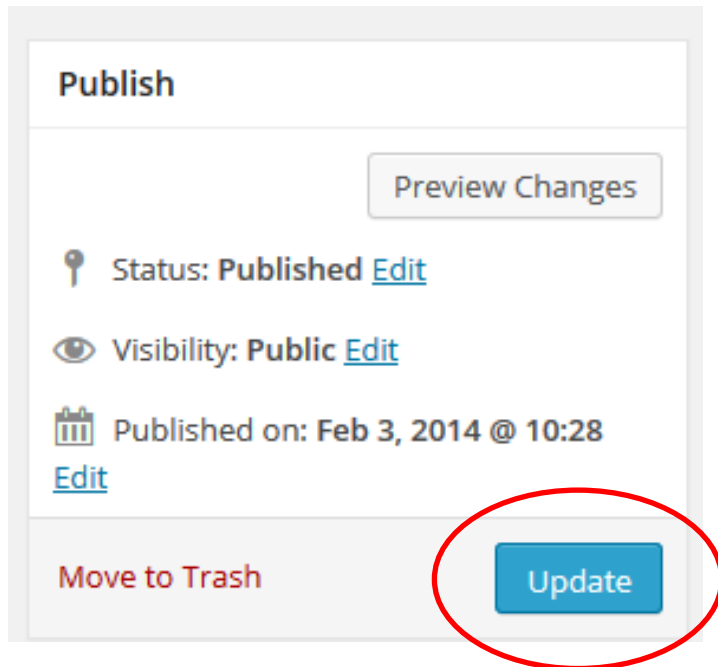

Simply place your cursor where you want your text to be pasted and your text should appear. You can exit out of the blue warning box by selecting the “x” in the top-right corner.

Your text can be formatted in WordPress by highlighting text and selecting the common formatting icons (identical to the ones used in MS Word).

SAVING YOUR EDITS

WordPress will not save any of your updates or revisions unless you select the “Update” button that is located near the top, right-hand section of the web page.

You also have the option to “Preview Changes”, but remember to select Update before you log out if you like the changes made, or else none of your content edits will be made.

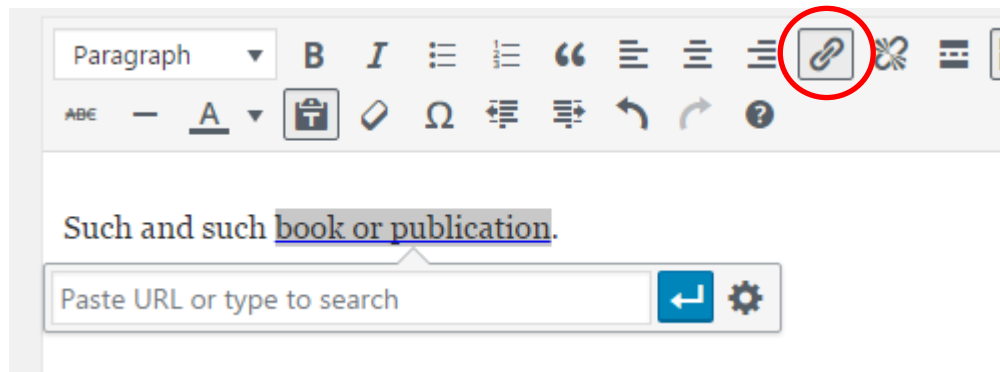

EMBED LINKS

If you plan on pasting a link to one of your books, publications, research projects, etc. - it is a good idea to embed the link into the text, rather than displaying a long, unseemly-looking URL.

First, highlight the text you want to link.

Next, click the Insert/edit link button on the toolbar: In the pop-up box that appears, enter the URL you want to link to: URL: The URL of the link (include http:// at the start)
